*Always consult your physician before using any CBD products.

*All Green Compass products, including Broad Spectrum and Boost, could contain very trace amounts of THC that are below detectable levels by our third party lab tests. Products are tested by using liquid chromatography, detecting THC levels over 100 PPM. If you are subject to drug testing then you may want to consult with the testing facility and your employer before using these products. Green Compass cannot guarantee the outcome of customer drug tests.
